

OUR 25 POINT CHECKLIST FOR YOUR PEACE OF MIND

We have given a lot of thought to how much time and effort you put into caring for your animal companions' health and happiness. We want to make sure we do the same while you are away!

When you are gone, many things have to be done on a daily basis to make sure your pets are safe, secure, comfortable and happy.

We go through a 25 point checklist every time we visit with your pets.

- Sanitizing to reduce illness and disease
- Releasing your security system
- Bringing in the newspaper
- Bringing in the mail
- Giving each pet clean, fresh water
- Giving each pet the proper amount of food
- Making sure each pet eats their food
- Checking on the welfare of shy/reclusive pets
- Restoring the supplies in the proper place
- Giving treats (if they are allowed)
- Cleaning up any "accidents" or messes that may occur
- Watering plants
- Having play time with each pet
- Cleaning the litter box
- Maintaining a comfort level in the home you set
- Checking all internal and external doors and windows
- Monitoring the condition of the home
- Ensuring the house fence perimeter is secure
- Changing the lighting arrangement
- Making sure pets are in their proper place
- Making notes/texts/emails updating the owners
- Administering medication if needed
- Checking each pet's condition
- Re-locking the house
- Restoring the security system

You do most of these things automatically when you are home.

We want you to feel comfortable knowing we will keep your home and animals safe.
